This will be ironed out when we get to the design stage, but notifications should be color coded depending on the type of notification and importance. I'm using the different shades here to demonstrate that.

Sort by

March 14th, 2014

By clicking the notifications icon a user sees a short list of the most recent notifications.

When the user clicks view all they're taken to a page which list all the notifications from say the last month or some other predefined date.
